

The 20 startups shown off at HTC's Vive X accelerator demo day

By Lucas Matney - Dec 6, 2016

Teemew

VR is mostly being sold as a place for fun and games, but Teemew is aiming to capitalize on the more professional use cases of VR by attempting to master the virtual reality business meeting. The app brings telepresence into a virtual environments, utilizing avatars and nifty VR business environments with whiteboards and other collaborative features.
